EXERCISE

Add A, AN, or THE when appropriate.

When planting _____ garden, you must always focus on three things: watering _____ plants; trimming _____ plants; and, using some sort of _____ fertilizer to help _____ plants to grow. Trimming should be done when _____ plant is infected by _____ disease, has been affected by _____ extremes of cold or hot weather, or shows any sign of discoloration in _____ leaves. Likewise, plants benefit from fertilizer. You might use _____ artificial fertilizer. Or, you might even use composted materials. Remember: _____ plants need sun, especially if _____ plants are outdoor plants. And, finally, make sure _____ plants have plenty of water. Although make _____ mental note that some plants need more water than others.
